Jøtul GF 200 DV II
Lillehammer

Direct Vent Gas Stove

Designed in collaboration with world-renowned designers and our well-regarded in-house engineers, the Jøtul GF 200 DV II Lillehammer brings into your home a touch of Scandinavian charm and warmth reminiscent of the 1994 Winter Olympics in Lillehammer, Norway. We challenge you to find another stove among the competition possessing the same crisp lines and sharp features that define world class craftsmanship and foundry capabilities. Popular options include: variable speed blower fan kit, antique brick panel kit (molded from real brick), screen for open door fire viewing, floor bracket kit (for mobile home installations), wall thermostat, remote control, a choice of enamel colors or Classic Matte Black Paint.

Options

- Antique brick panel kit (molded from real brick)
- Wall thermostat
- Variable speed blower fan kit
- Screen for open door fire viewing
- Remote control
- Floor bracket kit (for mobile home installations)
- Long legs (8”)
- Choice of two porcelain enamel colors
  - Classic Matte Black Paint
  - Leg leveler kit

Features

- Revolutionary new JøtulBurner™ delivers unsurpassed gas burner technology and flame picture realism
- 50% heat control turn down
- Durable, furniture quality cast iron construction
- ON/OFF thermostat switch
- Handcrafted ceramic fiber log set burns with the glowing warmth of a real wood fire
- Ability to corner vent without snorkel or tall cap
- Conversion kit included for use with propane gas
- No electricity required; easy-to-operate ignition system
- Zero clearance rear vent capability
- Natural convection for increased air circulation
- Vent restrictors included for vertical terminations
- Mobile home approved
- 5 year limited warranty

Jøtul GF 300 DV IPI Allagash

Direct Vent Gas Stove

The new Jøtul GF 300 DV IPI Allagash combines modern classic cast iron design with state of the art combustion technology. Fueled by the new pan style JøtulBurner™ and the cost saving IPI Proflame 2 ignition system, the Jøtul GF 300 DV IPI Allagash presents the perfect union of high efficiency and timeless design. With many upgradable options, a standard new 6 piece hand crafted log set and enhanced fireview, the Jøtul GF 300 DV IPI Allagash continues to be Jøtul’s best-selling gas stove.

Popular options include: top firing accent lights, multifunction remote, blower kit and a reversible brick liner (Antique Red & Brownstone). Available in 4 enamel colors or Classic Matte Black Paint.

Options

- Multifunction Proflame 2 remote with flame modulation control
- Wall thermostat
- Top firing accent light kit (remote controlled with 6 level illumination)
- Fire screen
- Blower Kit (120 CFM) (remote controlled with 6 speed levels)
- Reversible brick liner (Antique Red & Brownstone)
- Floor bracket kit for mobile home installations

Features

- "Modern Classic" cast iron design
- Extra large fire viewing area (180 sq.in.)
- Hidden magnetic door latch
- 6 piece hand crafted high density log set
- Top or rear reversible flue
- New pan style JøtulBurner™
- EZ Touch control door
- Upgradeable SIT Proflame 2 control system with integrated battery backup
- 50% heat control turn down

Jøtul GF 300 DV/BV Allagash

Direct Vent or B-Vent Gas Stove

As rugged as the wilderness waterway that bears its name, world-renowned designers and our team of in-house engineers made sure that our Jøtul GF 300 DV/BV Allagash presents the perfect union of high efficiency and cast iron beauty. Its classic lines and Gothic arch double doors frame a hand crafted log set, flame and glowing embers with a realism unrivaled in the hearth industry. Fueled by the quiet durability of our revolutionary new cast iron and stainless steel burner - the JøtulBurner™ - this stove is the best-selling gas stove in the long history of Jøtul. Popular options include: antique brick panel kit, remote control, fire screen for open door viewing, short leg kit for fireplace installations, and a choice of enamel colors or Classic Matte Black Paint.

Options

- Antique brick panel kit (molded from real brick)
- Wall thermostat
- Remote control
- Floor bracket kit (for mobile home installations)
- Top plate filler (for B-vent rear exit installations only)
- Variable speed blower fan kit
- Screen for open door fire viewing
- Short leg kit for fireplace installations (reduces height by 2 1/4”)
- Choice of three porcelain enamel colors
  - Classic Matte Black Paint
  - Blue/Black Porcelain Enamel
  - Ivory Porcelain Enamel
  - Brown Majolica Porcelain Enamel
- Leg leveler kit

Features

- Revolutionary new JøtulBurner™ delivers unsurpassed gas burner technology and flame picture realism
- Handcrafted ceramic fiber log set burns with the glowing warmth of a real wood fire
- Standard reversible flue collar for top or rear exit capability
- Large fire viewing area with open door capability – an industry pioneer!
- Durable, furniture quality cast iron construction
- ON/OFF Thermostat switch
- Natural convection for increased air circulation
- Vent restrictors included for vertical terminations (Direct Vent only)
- Jøtul Heat Fin™ technology means great heating capacity with a minimum of heat loss
- Pre-wired for blower fan kit
- No electricity required to operate stove
- Conversion kit included for use with propane gas
- 5 year limited warranty

Jøtul GF 600 DV II Firelight

Direct Vent Gas Stove

A descendent of our signature Jøtul F 600 Firelight CB wood stove, the Jøtul GF 600 DV II Firelight provides the same double door, open fire viewing and classic design that put Jøtul on the wood burning map in North America. Without any doubt, this stove has an unparalleled flame picture fueled by Jøtul’s revolutionary cast iron and stainless steel burner, the JøtulBurner™. With its 50% heat control turn down capability, the Jøtul GF 600 DV II Firelight fulfills the heat requirements of a variety of living spaces and can be used as a primary heat source. Popular options include: screen for open door fire viewing, antique brick panel kit, remote control, and variable speed blower fan kit.

Options

- Screen for open door fire viewing
- Antique brick panel kit (molded from real brick)
- Wall thermostat
- Remote control
- Floor bracket kit (for mobile home installations)
- Variable speed blower fan kit

Features

- Revolutionary new JøtulBurner™ delivers unsurpassed gas burner technology and flame picture realism
- 50% heat control turn down
- Largest fire viewing area available in a freestanding gas stove with open door fire viewing
- Hand-crafted ceramic fiber log set burns with the glowing warmth of a real wood fire
- Conversion kit included for use with propane gas
- No electricity required; easy-to-operate ignition system
- ON/OFF Thermostat switch
- Standard reversible flue for top or rear exit capability
- Vent restrictors included for vertical terminations
- Mobile home approved
- 5 year limited warranty

Gas Vent Guidelines

Direct Vent Systems
A direct vent gas appliance is a closed combustion system that takes its combustion air from outside the home. The system uses either a co-axial pipe (a pipe within a pipe) or a co-linear system to both take air in for combustion and exhaust products of combustion.

Co-axial Vent
A co-axial vent consists of a smaller pipe within a larger pipe, most commonly a 4-inch pipe inside a 6 5/8 inch pipe. This type of venting pipe is used when the venting runs horizontally and passes through an outside wall, or vertically to penetrate the roof. A specific termination cap is used that separates exhaust gases from the incoming combustion air.

Co-linear Vent
A co-linear venting system is used for direct vent gas fireplace inserts and freestanding gas stoves when installed in front of existing masonry fireplaces. This venting system consists of two 3-inch flexible liners that are run up a masonry chimney. One liner is used for the air intake and the other for exhaust. The liners are attached to adapters on the unit, run up the flue and then connect to a co-linear adapter on the top of the chimney, to which the direct vent cap is secured. When used with a freestanding stove, a co-linear adapter is also attached to the stove to convert the co-axial pipe to the co-linear venting system.

B-Vent Systems
A B-vent or natural draft system is often vented into a masonry or class A chimney system. Stoves using this type of venting use room air for combustion and exhaust the products of combustion into a chimney. When using a masonry chimney, a 4-inch aluminum gas liner must be installed.
The SIT ProFlame 2 Ignition System is the next generation in efficient gas stove technology. Featured in the new Jøtul GF 300 DV IPI Allagash, this ignition system allows you to operate all of the stove’s features with the push of a button. Functions include both manual and thermostatic controls, flame height, fan speed, and accent lamps, each with 6 levels of modulation. Paving the way by being the first to offer the new SIT ProFlame 2 Ignition system, Jøtul is setting the standard for efficient gas stove technology.

Blue LCD Screen clearly displays the status of all of the remotes features.

On/Off Key controls power to the burner, fan, and lamp features.

Up / Down Key controls temperature range, fan speed, light luminance and flame height.

Mode Key Allows you to toggle between all of the system features.

Thermostat Key Allows you to toggle between manual and 2 thermostat modes.

1 Heating Capacity will vary depending on the design of the home, climate, elevation, operation and venting configuration.

2 Depth dimension includes ashlip and flue collar.

3 With maximum vent configuration
This heating capacity zone chart is to be used as a guideline only. Square footage measurements may differ due to climate, building construction and location of stove. Aproximate BTU output reflects both natural and LP gas applications.
Warranty
Our 5 year warranty: a cast iron promise of quality. Jøtul guarantees the quality of its cast iron components against any defects in materials or workmanship for five years, subject to the exclusions and limitations noted on our warranty. For complete details, ask your Authorized Jøtul Dealer.

Installation
Specifications and dimensions published in this brochure are intended to be used as guidelines for comparison only. Always consult the owner’s manual in planning any installation. Specifications and dimensions are subject to change without notice. Contact local building or fire officials regarding restrictions and installation inspection requirements in your area. BTU ratings are to be used as a guideline only, and do not imply a guarantee of the heating capacity of the unit.

Photographs
Some settings for the photographs are for aesthetic purposes only and may not comply with installation requirements. Materials, specifications, accessories, colors, and models are subject to change without notice. Some models are shown with optional accessories.

Hearth Requirements
Jøtul gas stoves cannot be installed directly on carpeting, vinyl, linoleum or Pergo™. If this appliance will be installed on any combustible material other than wood, a floor pad must be installed that is either metal or wood, or a listed hearth pad. This floor protection must extend the full width and depth of the appliance. It is not necessary to remove carpeting, vinyl or linoleum from underneath the floor protection.
